PROFESSIONAL SUMMARY

MCA graduate (2025) with approximately 10 months of internship experience as a Java Backend Developer and Web Developer. Proficient in React.js, Java, Spring Boot, and REST API development with hands-on experience in SQL, Python-based data analysis, and Tableau dashboard creation. Skilled in Agile methodology, OOP, debugging, and SDLC practices. Seeking roles in Software Development Engineering (Java) and Data Analytics.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL

Backend Development: Spring Boot, Spring Data JPA, REST APIs, Microservices (Basic)

Frontend Development: React.js, HTML, CSS

Databases: MySQL, MongoDB

Data Analysis & Reporting: MS Excel, Tableau, Pandas, EDA, Data Visualisation, Business Analysis, KPI Reporting

Tools & Platforms: Git, GitHub, Postman, VS Code

Concepts & Practices: OOP, Data Structures, SDLC, Agile Methodology, Debugging

PROFESSIONAL EXPERIENCE

Web Developer Intern — Silgate Solutions Pvt. Ltd.

Dec 2025 – Present

- Developed a React.js admin panel, integrating backend REST APIs to enable real-time data display across 5+ modules improving internal workflow efficiency by approximately 25%.
- Performed end-to-end testing and debugging that reduced UI defects by approximately 30% prior to production release.
- Collaborated with cross-functional teams using Agile practices to translate business requirements into working features, ensuring timely delivery within sprint deadlines.
- Leveraged AI tools to enhance the UI of a PHP-based platform (VCDial), making it more user-friendly and visually appealing, followed by thorough testing to ensure functionality and usability.

Backend Developer Intern — Ardent Computech Pvt. Ltd.

Feb 2025 – Jun 2025

- Designed and developed 7+ production-ready RESTful APIs in Java using Spring Boot and Spring Data JPA, applying OOP design principles to automate business workflows and reduce manual effort by approximately 30%.
- Performed application system analysis and debugging — identifying and resolving 15+ functional issues and ensuring data integrity across all integrated modules.
- Conducted data analysis using SQL and Python (Pandas), deriving actionable insights from 10,000+ records; built Tableau dashboards presenting KPIs and business trends to stakeholders.

VIRTUAL EXPERIENCE

Data Analytics Virtual Intern — Deloitte Australia (Forage)

2024

- Performed data cleaning and preprocessing on real-world business datasets, applying analytical techniques to ensure data quality and consistency.
- Conducted data analysis and reporting using MS Excel and Tableau, building interactive dashboards that surfaced key business insights for stakeholder decision-making.

PROJECTS

Aviation Crisis Impact Analysis Dashboard | Tableau, SQL, MS Excel

- Analysed aviation datasets to identify traffic volume, cancellation rates, and recovery trends; built interactive Tableau dashboards supporting data-driven business reporting and decision-making.

Plant Disease Detection System | Python, OpenCV, Machine Learning

- Developed an image classification pipeline using Python and OpenCV, applying preprocessing and computer vision techniques to achieve approximately 90% detection accuracy.

Temple Website Backend | Node.js, Express.js, MongoDB

- Built **RESTful APIs** with CRUD operations and tested endpoints using Postman, collaborating with stakeholders and teams to improve reliability and delivery by **20%**.

CERTIFICATIONS

- Java Programming — HackerRank Certified
- Introduction to Data Analysis using Microsoft Excel
- Claude 101: AI Fundamentals

EDUCATION

Master of Computer Applications (MCA) | 2023 – 2025

SIES College of Management Studies, Mumbai | CGPA: 7.38

Bachelor of Computer Applications (BCA) | 2020 – 2023

Dr. D. Y. Patil College, Pune | CGPA: 8.6
